## THE SITRIN ADVANTAGE

### COMPREHENSIVE CLINICAL TEAM

Sitrin's special needs residences are designed for developmentally disabled individuals with medical needs. Each house has a Registered Nurse and Service Coordinator overseeing our residents' program and care plans. Our physician visits each house weekly, as does a dietician, occupational therapist, physical therapist, speech language pathologist and behavior specialist.

### PERSONALIZED APPROACH

Our team works together with each resident to encourage them to participate to their fullest extent in decisions involving their medical, social, religious and emotional needs.

### ACTIVE COMMUNITY AND FAMILY INVOLVEMENT

Our residents enjoy participating in many activities in our local and regional area, including regular shopping trips for home and personal items, wellness and aquatic programs, outings to the theatre, sporting and special events, dining and other activities. Family members are welcomed at daily activities and special events.

### ENHANCED SERVICES FOR DEMENTIA

Birch residence is equipped with a special system to enhance safety for individuals with dementia-like symptoms who have a tendency to wander. Each residence also has programs tailored to meet overall needs for persons with dementia.

### DAY PROGRAM CHOICES

Sitrin collaborates with a variety of day program providers in our area to assure residents have access to the most appropriate day program choice. Integration with the general community is encouraged.

### COMFORTABLE LIVING ENVIRONMENT

Décor in each home is contemporary and amenities include gas fireplaces, aquariums, skylights and themed sensory rooms. We encourage you to come for a tour and meet our caring professional staff.

### CONTINUITY OF CARE

Because Sitrin's special needs residences are part of the same care community as our long term care and rehabilitation facilities and offers the benefits of a highly trained staff, we are able to provide our residents with access to a broad range of services to meet their individual needs as they change. This continuum of care means less disruption of daily life and higher degree of comfort for our residents, as well as greater peace of mind for their families.

### MEET OUR STAFF AND TAKE A TOUR

We encourage you to come for a tour and to meet our caring professional staff. You will feel welcome from the moment you step through our doors!
